

KEY FEATURES:

- ▶ Long excursion driver
- ▶ Tapped horn technology
- ▶ Optimal in small to medium room applications
- ▶ Screw type barrier strips

The CTH-50 utilizes our Tapped Horn™ technology to take full advantage of the driver element by doubling its output ability. The result is more volume from less input. Combine that attribute with the high power handling of the driver and you have one of the most powerful subwoofers on the market.

The CTH-50 is perfect for smaller theaters, and home theaters that demand high SPL and ultra low frequency. Amplifier presets are available in the DNA series amplifiers and processors. EQ, crossover and multi-stage limiters are all dialed in to perfection.

Operating Frequency Range	-----	18Hz - 200Hz - 10 dB
Output SPL	-----	127 dB SPL Continuous, 133 dB SPL Peak
Power:	-----	1000 Watts Continuous, 4000 Watts Peak
Drivers	-----	1 x 15" Long Excursion Driver
Input Connections	-----	Barrier Strip
Impedance	-----	4 Ω
Weight	-----	240 lbs / 108 Kg
Dimension	-----	45" H x 34" W x 25.5" D
